From \$15,000.00

DIGITAL MEDIA

PERMANENT

Selection process Invitational

Artwork timeline Permanent

Site context Park / family space

We seek talented digital and light artists, sculptors, projection designers, and creatives working with interactive technologies to participate in various projects and festivals. The location and timing will be shared in private. If you have a passion for digital innovation and a flair for dynamic, engaging designs, we want to connect with you!

WHAT WE ARE LOOKING FOR

We welcome brief proposals in various mediums, including but not limited to:

- **LED light sculptures** – freestanding or wall-mounted installations using LED arrays.
- **Projection mapping** – onto buildings, trees, water surfaces, or interactive spaces.
- **Kinetic and mechanical light sculptures** – moving or shape-shifting illuminated structures.
- **Augmented reality (AR) and mixed-media installations** – integrating light and digital overlays.
- **Interactive installations** – works that respond to audience presence, movement, or sound.
- **Light, lasers, and water installations** – floating or reflective artworks utilizing digital projection or illuminated elements.
- **Generative digital art** – works created with coding, AI, or creative programming tools such as TouchDesigner.
- **Experiential and immersive environments** – multi-sensory installations combining visuals, sound, and interactive components.

All selected artworks must be safe for outdoor display, durable in various weather conditions, and compatible with the available infrastructure.

FUNDING & SUPPORT

This budget varies and may be awarded to one or multiple installations based on the scope and feasibility of the proposals. Artists are encouraged to outline their budget needs within their application. For example, a total of \$30,000 may support one big or mid-size artwork, or potentially several smaller-scale works. Individual artist budgets may be from \$5,000 to \$15,000, which should be all-inclusive, covering artist fees,

materials, fabrication, transportation, and installation costs. We are happy to discuss adjustments based on project complexity, feasibility, and available in-kind support. Your artworks can be offered for sale. **Note:** In case of a successful sale, we allocate 20% of the total budget to Monochronicle. For more information, [contact us.](#)

HOW TO APPLY

Interested artists should submit the following via the form below:

1. **Project Proposal** – A brief description of the proposed artwork, including its concept, technical requirements (any power, space, or special setup), and interactivity (if applicable).
2. **Visuals** – Links or images of past projects, especially related to digital art and light installations, examples, renderings, sketches, or a mock-up of the proposed work. We allow AI-generated images to represent the idea.

PROJECT EXAMPLE

[InLight](#) is an annual festival dedicated to the exploration of digital art, interactivity, and the creative potential of light. <https://youtu.be/ZEDU-rsBXho>
